### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:
2. The examiner considered the Applicant's Amendment filed on 5-8-2007, the board decision of 10-10-2006, and after updated search, no other prior art of record has taught that which was presented in the amended claims
3. Therefore, claim 5 is allowable.
4. Independent claim 5, when considered as a whole, is allowable over the prior art of record (Johnson, Jr. et al., Patent Number: US 6,396,474, hereinafter Johnson).  
Johnson teaches, in column 1, line 40-55, a system in which text is snapped to a cursor for the purpose of moving the text, in column 5, lines 3-5 and lines 26-44 and in figures 3A-3E, text being gradually moved to the other end of the cursor, in column 4, lines 20-34, column 5, lines 3-5, column 7, lines 5-10, and in figures 3A-3C, a modification of the position indicator in response to a cut or copy command, where the selected text is gradually moved to the other end of the cursor (non-pointed end), where size may be modified. This text string could be loaded in an indicator bubble instead of a square as taught by Johnson, as this is a design choice, and in column 4, lines 20-34, column 5, lines 3-5, column 7, lines 5-10, and in figures 3A-3C, a modification of the position indicator in response to a cut or copy command, where the selected text is gradually moved to the other end of the cursor (non-pointed end), where size may be modified. However, specifically the prior art of record fails to clearly teach or support the limitations of "*moving the marked object towards the display position indicator while the*

*object is being reduced*", where the object's movement and reduction must occur simultaneously.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
